U.S.S.N.: 09/747,737  
Filing Date: December 21, 2000  
EMC Docket No.: EMC-00-212

**REMARKS**

The Final Office Action mailed December 6, 2006 has been carefully considered and it is respectfully requested that the application be reconsidered in view of the amendments made to the claims and for the remarks herein.

Amendments have been made to the independent claims to recite that the software or applications packages are created by the invention disclosed and that native utilities of the determined operating system are utilized to create the software or application packages.

In the Final Office Action, claims 1 and 9-11 were rejected under 35 USC 102(e) as being anticipated by Curtis (USP no. 7,000,222). A reading of Curtis reveals that Curtis discloses an installation program that uses native utilities of an operating system to load an application into a designated location. However, Curtis fails to disclose the creation of software or application packages that may be used by an installation program similar to that described by Curtis.

Entry of the claims, as amended, and reconsideration is respectfully requested. .

In the event the Examiner deems personal contact desirable in the disposition of this matter, the Examiner is invited to call the undersigned attorney.

Please charge all fees occasioned by this submission to Deposit Account No. 05-0889.

Respectfully submitted,
